Mayor of Utena District Municipality Alvydas Katinas welcomes to “Winter Rally 2018”!

“Winter Rally 2018” will start in the heart of Eastern Aukštaitija, city of happiness – Utena on January 27th. This is a great festival indeed for the whole District of Utena, its residents and all of passionate rallying community.

With each year winter rally is different as well. The organizers make a push towards even more thrilling moments, more emotions, more passion and intensity. The nature also puts an effort to create yet another image of the rally. There are times, when the rally cars roar on winterless roads with no snow, and there is also time, when it doesn’t spare cold temperatures and snow. I am glad that this year the nature returned us winter: white, shining and having frozen over the roads, fields and lakes. I hope that this year’s winter will help the sportsmen to demonstrate even greater skills and ingenuity and will present great mood, unforgettable moments and the joy of watching battles for the victory for the spectators.

I wish all the participants of “Winter Rally 2018” the best of luck in tricky stages of Utena region. I also welcome people from all over the country to visit the city of happiness on January 27th and witness the first sports event of the year. It will be a performance of drive, concentration, endurance, speed and the sound of race car engines, that will be crowned by spectacular awards ceremony and exclusive concert.

See you in Utena!

Alvydas Katinas,
Mayor of Utena District Municipality

Utena

Utena is a capital of Eastern Aukštaitija and one of the oldest towns of Lithuania that was mentioned for first time in a letter of the King Mindaugas in 1261. Utena is situated in an exceptionally picturesque location – amid the lakes Dauniškis and Vyžuonaitis. For the 750th anniversary of the town a unique attraction – shining and playing fountain with water screen - was equipped in Lake Dauniškis.

The land of Utena is fascinating during all the seasons: in summer holiday-makers are enticed by wonderful Lake Alaušas, in winter – many car racing fans are attracted by the popular Halls Winter Rally. Holiday-makers are welcome to cosy homesteads of rural tourism, the number of which exceeds forty in the land of Utena.

Guests of Utena may visit the only in Lithuania Museum of Ceramics and try to throw a pot by their own hands. If you visit the old post-office in Utena, which many years ago was lyricized by the poet Antanas Baranuskas, you will familiarize with an interesting history of the intermediate station of Warsaw – St. Petersburg highway. Many famous people such as Honoré de Balzac, Ilya Repin, Jonas Basanavičius and others had stayed here when travelling. Regular visitors of Utena can notice that during the recent years the town has been visibly beautified. Some new squares and cosy parks were established, streets are being rapidly improved.

The residents of Utena are hospitable eastern Aukštaitians who will make every guest welcome and willingly show around the town and obligingly accompany them. Come and make sure that Utena is indeed the town of happy people!

Molėtai

Just 40 kilometers away from Vilnius towards Eastern Aukštaitija you can step into the land of lakes and peace and quiet. First mentioned in historic notes in year 1387, Molėtai nowadays is a district of growing interest of tourists.

The reason for the attraction – clean environment and unparalleled landscape. Among the forests, that take one fourth of Molėtai territory, there lie 300 lakes. The heritage of Grand Duchy of Lithuania is preserved by Asveja – the longest lake in Lithuania. Part of Molėtai district is also included into Asveja and Labanoras national parks.

One of the most interesting places in the region – a unique Lithuanian Ethnocosmology Museum. A 36 m high Mindūnai observation tower tempts the tourists to climb to enjoy beautiful sights of Labanoras forest and a group of lakes that are visible from the top. Not to mention the delicious fish soup in the back yard of Lake Fishery Museum. Here in the Videniškiai monastery, the tales on monks spread around it. The history is revived due to virtual reality in Molėtai Tourism and Business Information Center.

The restaurants tempt with traditional Lithuanian dishes, local beer and kvass. Active recreation is professionally organized. Hotels, guest houses, country tourism homesteads, campings and campsites welcome staying in the region. All the Molėtai region really comes to life during traditional events that take place here.

XVI. USEFUL INFORMATION

Lithuanian climate:

Lithuania is in cool average climate zone and has average warm summers and average cold winters. Average temperature of July is approximately 17 °C (63 °F), winters have average temperatures of approximately -5 °C (23 °F); interval between temperatures is roughly 20 °C (36 °F). There were very warm summers in Lithuania, when air temperature climbed up to 35 °C (95 °F), as well as very cold winters, when air temperature dropped to -25 °C (-13 °F) at daytime, and -30 °C (-22 °F) at nights. According to climate inclemency, Lithuania is ascribed to 5-6 zones. Summers have the highest precipitation (up to 50% of annual precipitation) due to sudden storms, squalls, thunderstorms and rains. Autumn and winter have lesser precipitation, whereas spring has the least rainfall (due to predominant anticyclones).
