Connectivity scheme

STS Installation scheme

SAFETY AND TRACKING EQUIPMENT PRINCIPLES

The competitors are responsible for installation of the equipment by themselves. The same device is used during both: the reconnaissance and the rally. During the reconnaissance the device has to be installed in visible place to assure that Marshals and other Officials could identify it.

Safety and tracking equipment and information sticker has to be installed into the rally car before the start of the rally.

The system should be installed by the crew and must be shown to the GPS provider before start of the rally or applicable before test stage start. They will check if GPS safety equipment and information sticker is installed properly. Competition cars not equipped with the safety and tracking device will not be allowed to start.

GPS units and brackets should be dismounted from the rally cars by the crew after the finish time control. In the case of the retirement GPS equipment shall be delivered to the provider of the GPS units in Rally HQ.

After the stopping in the SS, the crew must press "SOS" or "OK" buttons in the 30 second time and must inform Rally HQ by telephone (telephone number can be found on the information sticker).

During the race the crew must have mobile phone switched on, or must switch it on in 60 seconds after stopping in SS (for a longer than a 30 sec period of time) in order that rally centre is able to contact the crew. The crew will be penalized for violating the usage of "OK" and "SOS" signals.

3.3.6 Restart After Retirement / Final Retirement

- RRSR Art. 54.1.1: Confirmation of a final retirement must be communicated by Email, but only by the duly authorized competitor's representative to the Clerk of the Course.
- RRSR Art. 54.1.2: Competitors who have retired are not required to hand in their time card.

3.3.7 Time Cards And Controls

The following procedures apply and have priority over all the related provisions in the 2021 FIA RR Sporting Regulations as far as they are in conflict. Some of the conflicting article numbers are quoted below, but without claiming to be exhaustive.

Any irregularity or discrepancies regarding the below procedures will result in the application of RRSR Art. 19.3.4 and 44.2.12. It is to be noted that, as a principle, the entries recorded on the timing marshals' check sheets shall be decisive.

The complete set of Time Cards for the whole rally will be delivered with the rally materials at administrative checks. It is imperative for all crews to carry at least all the Time Card sets for a whole day inside the car (cf. for example procedures at regrouping controls).

TIME CONTROLS

- a. The check-in procedure begins at the moment as stipulated in RRSR Art. 44.2.1.
- b. The check-in time corresponds to the moment at which the co-driver shows their time card to the marshal through the side window (RRSR Art. 44.1 & 44.2.4).
- c. The appropriate marshal will then enter the actual time at which the card was shown on the timing tablet and write it on the check sheet (RRSR Art. 44.2.5).
- d. They will then show the recorded check-in time and, in case of a Time Control followed by a special stage, the provisional special stage start time to the co-driver. The co-driver shall then enter this time on their time card (RRSR Art. 44.2.5).

SPECIAL STAGE START

- e. At the start line, the co-driver shows the appropriate marshal the time card through the side window. The marshal then either confirms this provisional start time or shows a different start time on his check-sheet.
- f. This new time, if any, shall then be recorded as actual start time on the time card by the co-driver (RRSR Art. 48.2.3). This actual start time will also be shown on the electronic start count-down display.

SPECIAL STAGE STOP POINT

- g. The appropriate marshal at the stop point will show the finish time (time of the day: hour, minute, second, tenth of a second) and the calculated stage time to the crew (co-driver).
- h. The co-driver shall record this time on their time card.

REGROUPING CONTROLS (RRSR ART. 46)

- i. There is no need to hand in the Time Card used for the Section concerned.
- j. For regroupings during a day, the crews shall themselves record their re-start time from the regroup as instructed by the timing marshal on their new time card for the following Section of that day.
- k. In case of an overnight regroup, the crew shall themselves record their re-start time of the following day on their time card, following the publication of the start list for the section after the overnight regroup.

FLEXI-SERVICE

The marshal at the control Technical Zone OUT/Service IN will keep a check sheet and record

the start of the permitted service time.

The marshal at the entrance to the overnight parc fermé will also keep a check sheet to record the time of the car entering the parc fermé.
